# Moderator Bio

**Mike Houston**

**T³ National Instructor**

**Ellwood City, PA**

Mike is in his sixteenth year of teaching high school mathematics in Ellwood City, PA. While participating in a TI-Navigator™ Fast-Track in 2007, he learned how technology can effectively cultivate students' wide range of learning styles. During this time, Mike has served as a T³ National Instructor. Mike is also the coauthor of: *On the Money: Mathematics Activities to Build Financial Literacy Grades K-5.*

Texas Instruments

# Panelist Bio

**Ellen Piekarski**

**T³ Regional Instructor**

**Anchorage, AL**

Growing up, Ellen didn't even consider being a teacher because teachers either had to deal with runny noses and wet pants or they had to give boring lectures all day. After she received her bachelor's degree, she was asked to teach a group of teenagers at her church. Ellen discovered her love of teaching older kids and was reminded of how much she loves math. Ellen went back to school and started her journey in education.

# Agenda

- Welcome & introductions
- Who: Who am I & Who hates math?
- Why: Why teach with math activities?
- How: How to teach math to students who hate math
- Webinar drawing

**Enhance your teaching with a virtual, hands-on learning experience**
