Moderator Bio

Mike Houston

T^3 National Instructor
Riverside High School
Ellwood City, PA

Mike is in his thirteenth year of teaching high school mathematics in Ellwood City, PA. While participating in a TI-Navigator™ Fast-Track in 2007, he learned how technology can effectively cultivate students' wide range of learning styles. During this time, Mike has served as a T^3 National Instructor and a contributing author for MathForward™.

Panelists' Bios

Toni Norrell

T^3 Regional Instructor

Corpus Christi, TX

Toni has over 25 years of teaching experience from 5th grade to College Algebra. She works as a Math Specialist and T^3 Regional Instructor, and she is a recipient of the Presidential Award for Excellence in Mathematics and Science Teaching (PAEMST). Currently, she and Michelle are developing and delivering Computer Science professional development in Texas.

Michelle Rinehart

T^3 Regional Instructor

Fort Davis, TX

Born and raised in rural Ontario, Canada, Michelle studied mathematics, physics, and education before moving to Texas. Michelle has taught high school math and science at rural districts in Texas, while also working as a math and science consultant throughout the state. Her interests include technology integration, conceptual understanding, and curriculum and instruction.

Agenda

- Welcome & introductions
- Advanced Topics in Computer Science: Working with Arrays
  - Defining Arrays
  - Indexing Arrays
  - Generating Arrays with Random Numbers
  - Requesting Values for Arrays
  - Adding Elements to Arrays
  - Array Challenges
- Online Resources

Standard Disclosure– No Restrictions

Expected Outcomes

At the end of this session, you will have:

- **Discuss** and **model** processing data in one-dimensional and multi-dimensional arrays
- **Explore** how to index, traverse, and augment arrays
- **Apply** array processing techniques to solve problems and code solutions
- **Review** important topics for computer science certification examination

Standard Disclosure– No Restrictions

Attend a hands-on workshop to support your professional development goals

- Experience a content-rich, hands-on learning opportunity
- Gain ideas and classroom-proven strategies for using TI technology and activities
- Discover how to create rich learning environments that deepen student understanding in math, science and STEM

Get TI technology with registration | Register four educators and the fifth attends free

Reserve your opportunity now at **education.ti.com/t3summerworkshops**

Upcoming Webinars & Survey

Register for upcoming webinars:
