

Exporting Student Results from Class Analysis

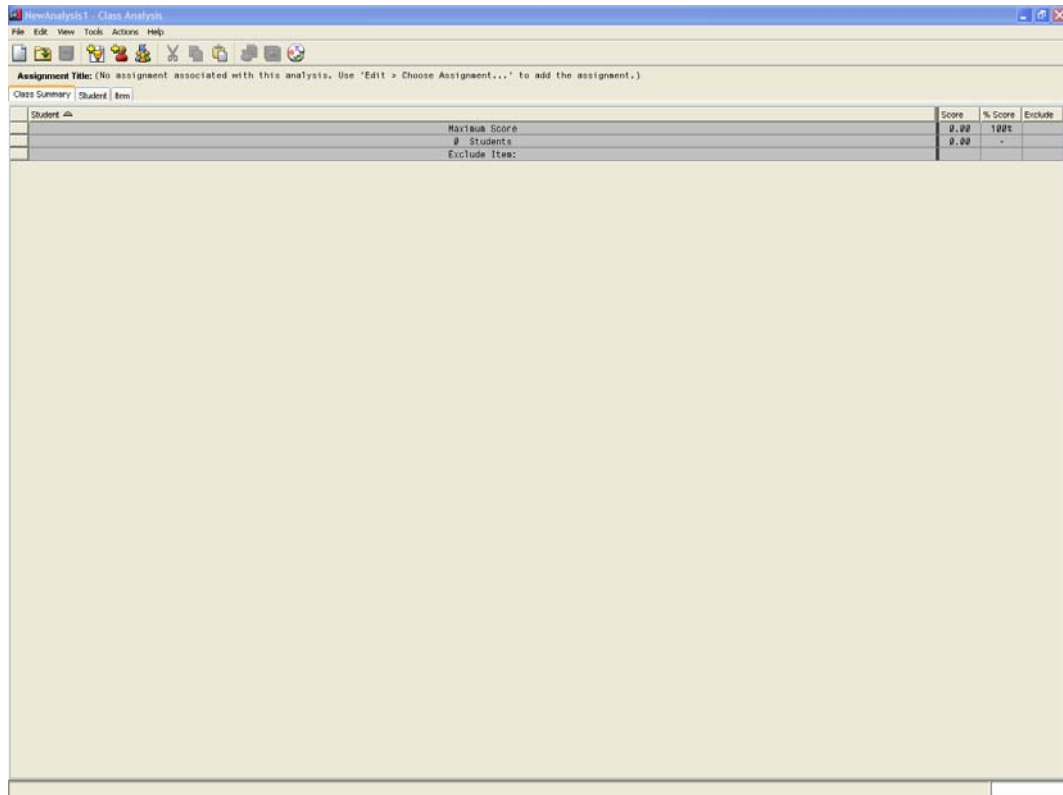

Overview

- This tour details options for exporting results from Class Analysis.
- Using the built-in export capabilities
 - Copying and pasting results into a spreadsheet application.

1. Launch the Class Analysis Software

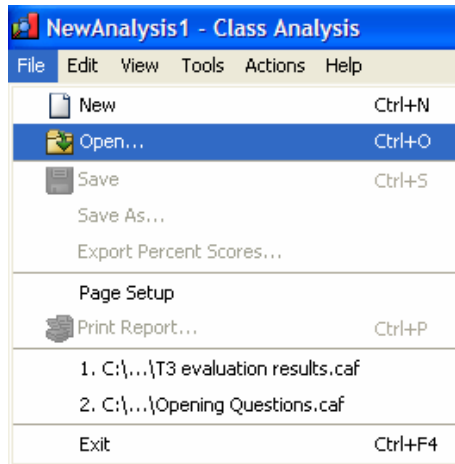

Click **Start > Programs > TI Tools > Class Analysis > Class Analysis**

The **Class Analysis** program opens.

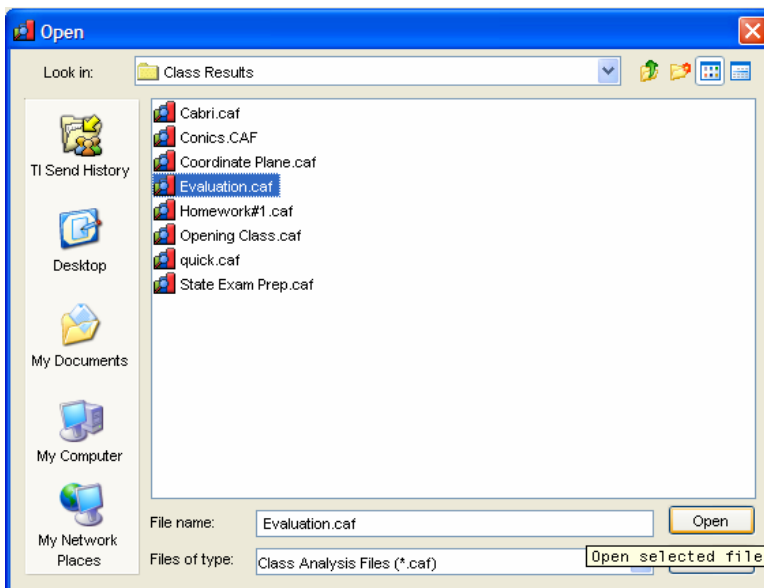

2. Open Previously Collected Class Results

Select **File** → **Open**

Choose the file and select **Open**.

The classroom summary report will be shown.

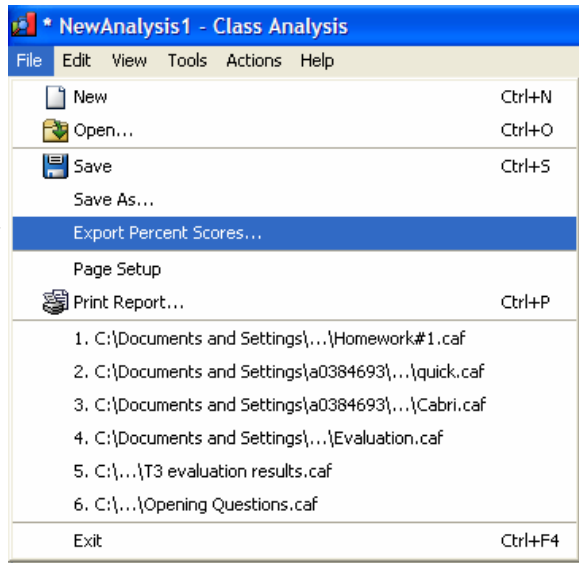

The screenshot shows the 'NewAnalysis1 - Class Analysis' application displaying a classroom summary report. The report is titled 'Assignment Title: Review for Test (Review for Test.edc, REVIEWF)' and shows a table of student scores for six items.

Student	1	2	3	4	5	6	Score	% Score	Exclude

3. Export Raw Percentage Scores

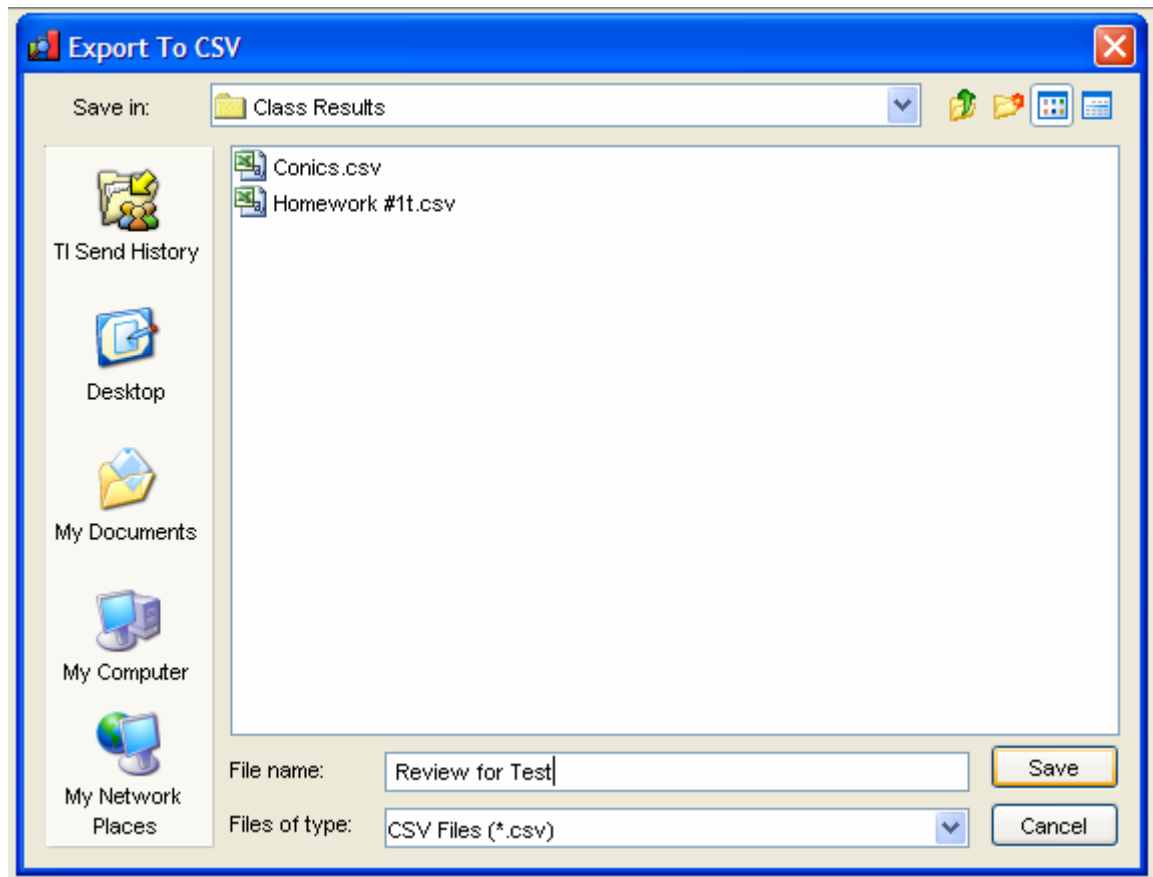

Select File → Export Percent Scores

This will export the student names and their percentage score on the assignment.

Browse to the directory in which you want to save the file, type a filename and select **Save**.

The .csv file format is a common format that many grade book programs are able to import.

1. Copy Students Results

Select the student information to copy.

To capture all the information from the assignment select the Maximum score row and then hold the Shift key and select the Total Students row.

Student	1	2	3	4	5	6	Score	% Score	Exclude
Maximum Score	1.00	2.00	2.00	1.00	1.00	3.00	10.00	100%
