

Dear Parent,

When it comes to your child’s education, your son or daughter’s best interest is my highest priority. Careful instruction and encouragement – and the right classroom learning tools – are essential for your child to achieve success and their potential in math and science.

As we begin the new school year, I remain committed to providing your child the guidance they need to acquire a deeper understanding of math and science.

To help your child develop the critical thinking skills that will make a difference in their future, I plan to use an array of educational tools – including Texas Instruments graphing calculators – this school year in the following classes:

---

Your child will benefit from having their own graphing calculator for both class assignments and homework – the learning process will extend and continue beyond classroom instruction. They should be able to use their graphing calculator throughout high school and college. Texas Instruments graphing calculators offer upgradeable features and sizeable memory.

**Graphing calculators are also permitted or even required on a number of high stakes exams:**

- SAT\* and ACT\* College Entrance Exams
- AP\* Calculus, AP\* Chemistry, AP\* Physics and AP\* Statistics exams
- Our state’s standard math test, the \_\_\_\_\_

Purchasing one now will allow your son or daughter to become familiar and proficient in using it. Your child should benefit from having it for both in-class assignments and homework.

<b>Preloaded Subjects and Available Features:</b>	<b>TI-84 Plus Silver Edition</b>	<b>TI-84 Plus</b>	<b>TI-83 Plus</b>	<b>TI-89 Titanium</b>
Middle School Math	■	■	■	
Pre-algebra	■	■	■	
Algebra 1 & 2, Trigonometry, Statistics	■	■	■	
Geometry	■			■
Pre-calculus	■
