

Using Screen Capture

Overview

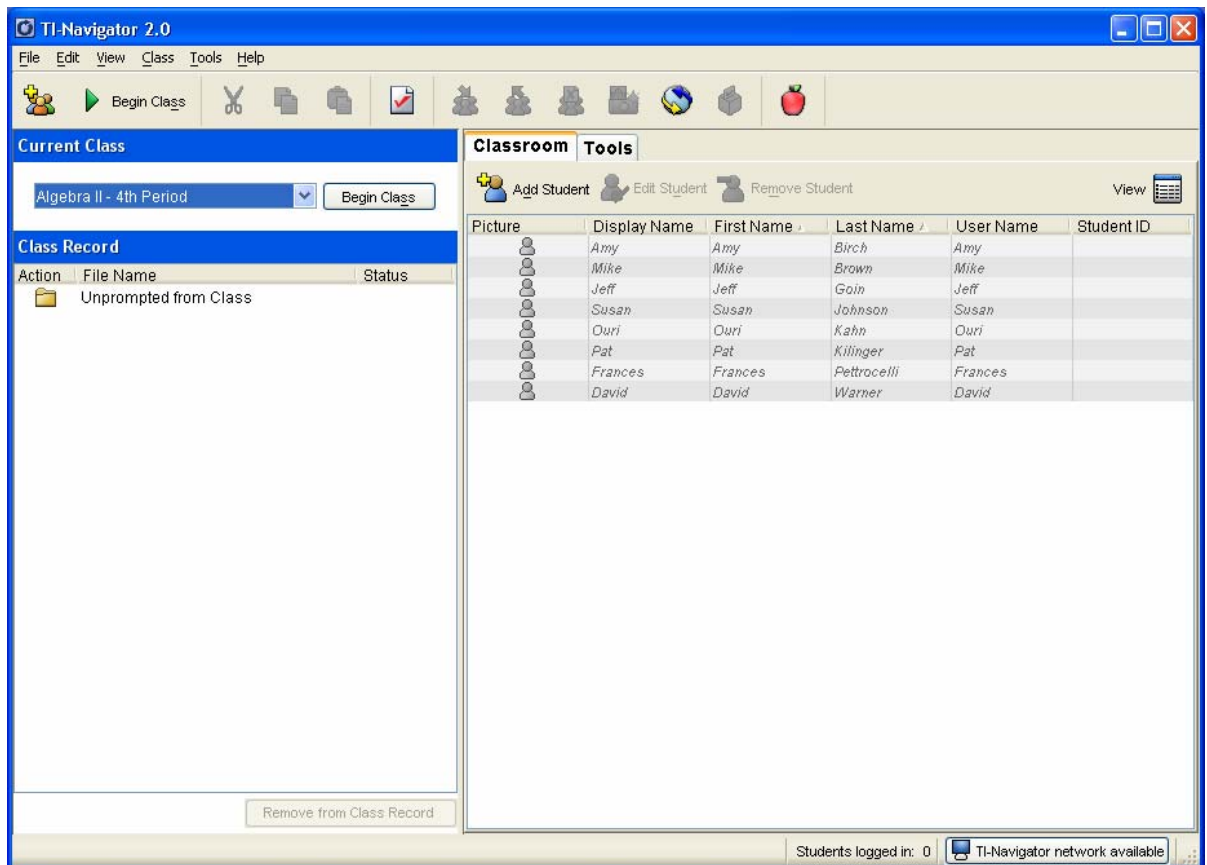

This tour details the use of Screen Capture in the TI-Navigator™ software and covers the following areas

1. Capturing screens from entire class
2. Refreshing screens
3. Capturing screens from one or more students

1. Launch the TI-Navigator Software

Click **Start > Programs > TI Tools > TI-Navigator > TI-Navigator**.

The TI-Navigator computer home screen opens.

2. Start a Class

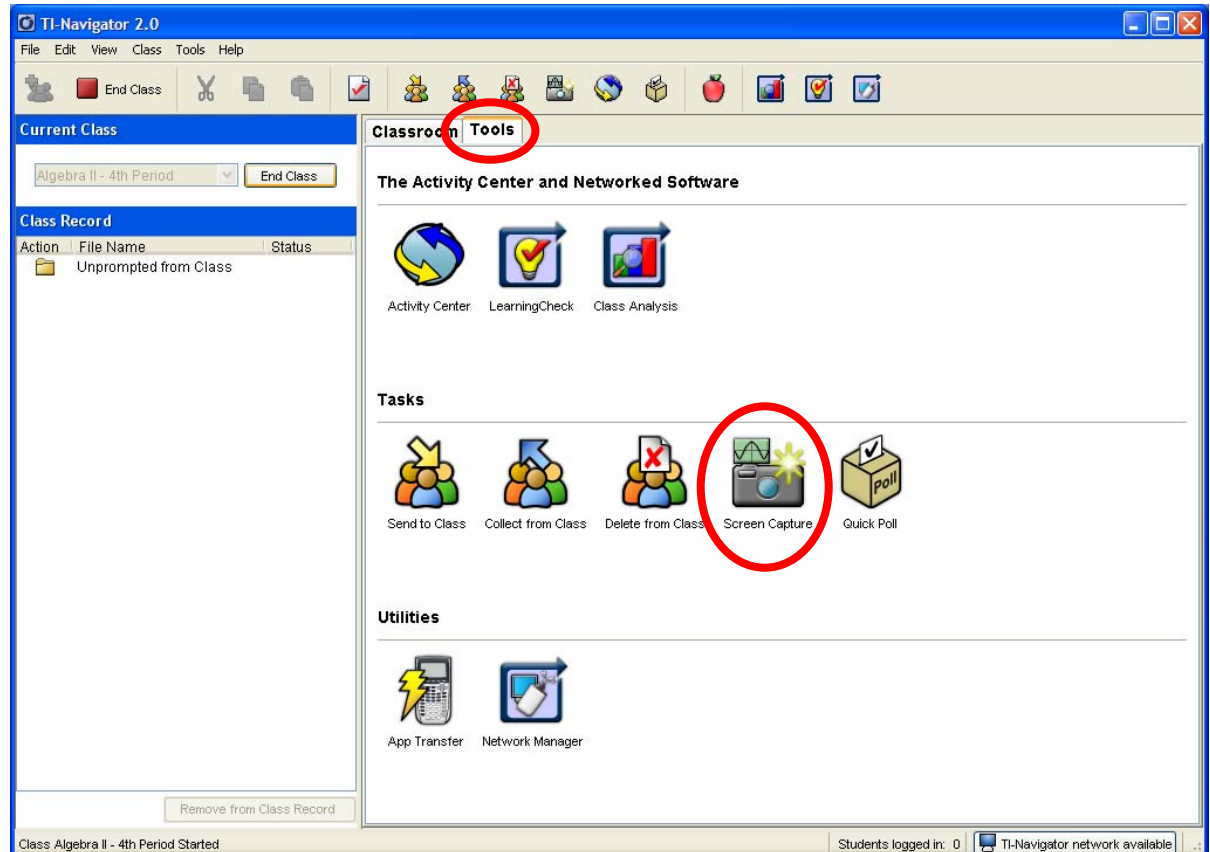

Assure that your TI-Navigator™ network hardware is connected and powered and calculators containing the necessary apps are connected.

Choose a Class to begin in the **Current Class** selector and click **Begin Class**.

3. Open the Tools Tab and launch the Screen Capture tool

A. Click the **Tools** tab near the upper middle of the home screen.

B. Click the **Screen Capture** icon.

4. Select Students

A. Default setting will be to collect screens from the entire class; however you can also select to collect specific students' screens.

- To select the entire class click on the **Class** Icon

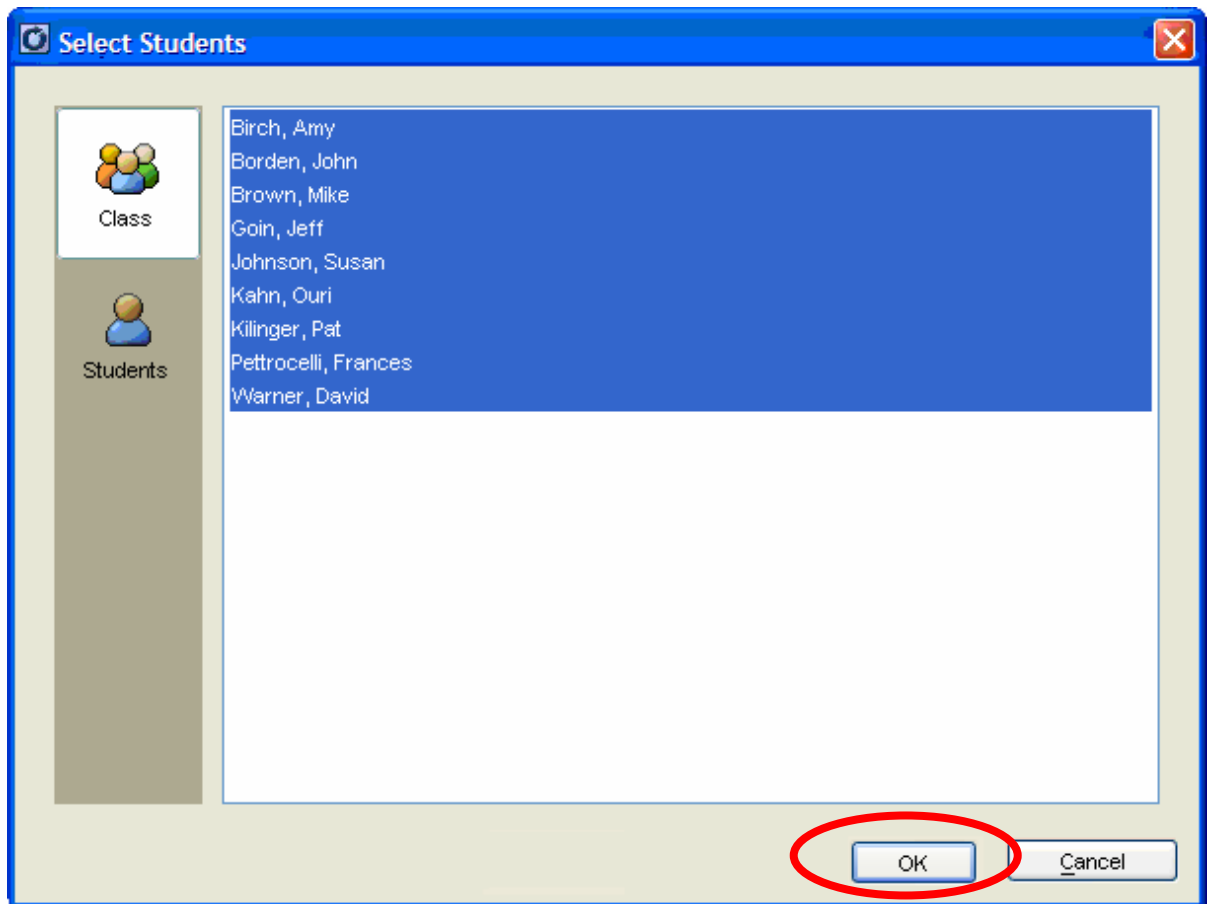

- To select specific students click on the **Student** Icon

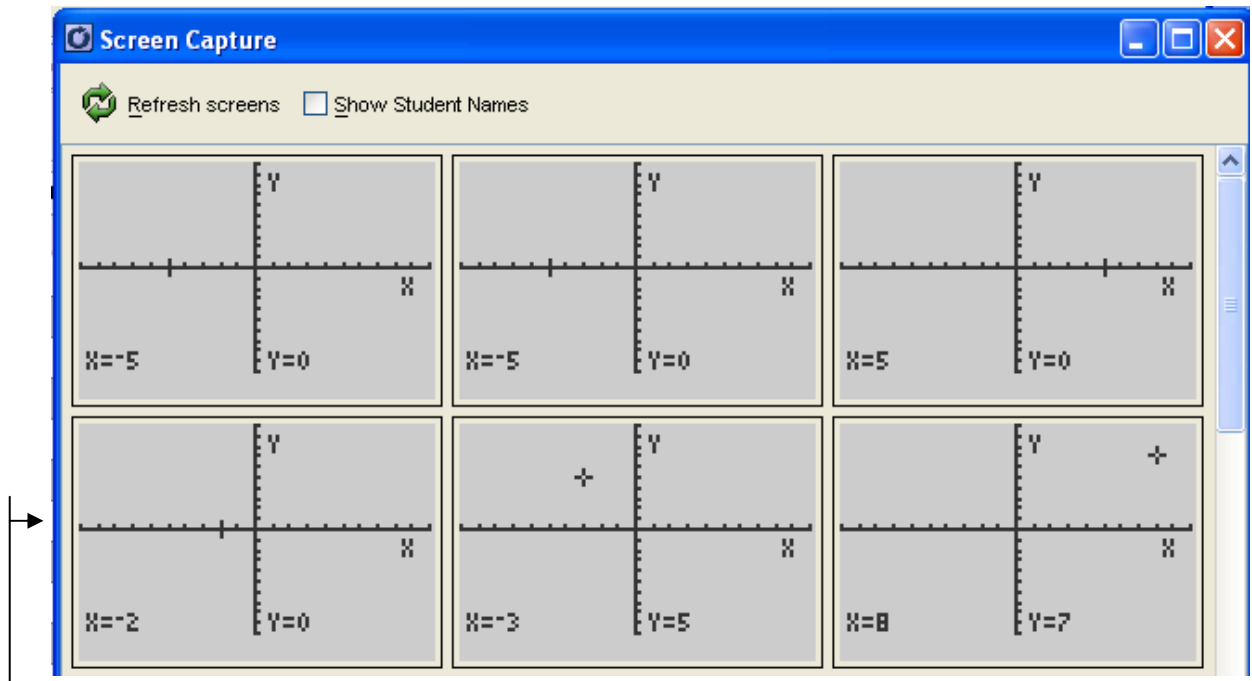

B. Click the **OK** button.

To select multiple student hold down the **CTRL** key while clicking on student names

C. The **Screen Capture** window opens and student screens are collected.

5. Refresh Student Screens

Click on the **Refresh** to capture a fresh set of student screens.
