## Electric Bill: "Turn Off The Extra Lights?" ID:

## Scenario:

Electric bills represent a utility which everyone has to pay in the United States. Homeowners and most renters are responsible for paying their own electricity. Some apartment rents include the cost of electricity in the rent charge. It is important that we understand the cost of utilities and consider how utilization of electricity affects our total bill each month. Information from an electric bill is as follows:

| Meter \# | Start Date | Start Read | Read <br> Code | End Date | End Read | Read <br> Code |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| 186194 | $05 / 08 / 07$ | 37,139 | Estimated | $06 / 12 / 07$ | 37,990 | Regular |

1. Determine the number of kilowatt hours (kwh) used:
$\qquad$

Other Information regarding how charges are determined on the bill:

| Rates: | Charges |
| :--- | :--- |
| 50 kwh or less (monthly minimum) | $2 . \$ 5.00$ |
| Next 300 kwh @ $\$ 0.04773$ | 3. |
| Kwh over $350 @ \$ 0.07218$ | 4. |
| Total Energy Charge for ___kwh | 5. |
| AREA adjustment __kwh@\$0.0001 | 6. |
| Resource Adjustment 29.82\% of total amt. | 7. |
| Minnesota Sales Tax (6.5\%) | 8. |
| Total Charge this service agreement | 9. |

Calculate \#2 - 6 in the above table; these facts will be used as you construct a piecewise function to represent the energy charges. When you have created the function you will use the function and the other rates to determine the Total Charge for the service agreement using the Calculator application on the TI-Nspire calculator.

## Create The Piecewise Function:

(Representing the Total Energy Charge)
10. The "piece" representing 50 kwh or less $\qquad$
Add the AREA adjustment to each of the rates in the next two pieces.
11. The "piece " representing the next 300 kwh $\qquad$
12. The "piece" representing Kwh over 350 $\qquad$

Graph the function represented : (Label Axis Appropriately)

|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |

13. Determine the Total Charge For This Service Agreement for the Sample Problem, using the kwh determined in \#1. (Include $29.82 \%$ resource adjustment and Minnesota Sales Tax, 6.5\%)

Complete the table below to determine total energy charge for the kwh indicated:

| Kilowatt Hours Used | Total Energy Charge |
| :--- | :--- |
| 14. 45 kwh | 14. |
| 15. 135 kwh | 15. |
| 16.288 kwh | 16. |
| 17. 396 kwh | 17. |
| 18. 725 kwh | 18. |
| 19. 945 kwh | 19. |

Determine the Total Charge For This Service Agreement For Each of KWH
Listed: (Include Resource Adjustment and Minnesota Sales Tax)
20. 45 kwh
21. 135 kwh
22. 396 kwh
23. 945 kwh

List at least four reasons why a house with the same square footage and electricity plan as another house may have a considerable higher bill:

## Study the following chart representing billing for the same house for the past 24

 months.
24. What part of the United States do you think this house is located in? Explain your answer.
