

The StudyCards App allows you to create electronic flash cards to use as a study tool for quiz or test review. In this activity, we are going to use a prepared set of flash cards from education.ti.com/studycards called Squares and Square Roots.

StudyCards Creator Software

The TI StudyCards Creator software allows you to expand your TI-73 Explorer™ for use in any subject! This easy-to-use PC software allows you to create the StudyCards stack that you need. Download the creator software for your computer at education.ti.com/studycards (StudyCards Creator Software is available for PC users only.) Before you begin, you will also need the StudyCards App loaded on your TI-73 Explorer. Read the instructions and download the App from education.ti.com/apps

Explore

1. The first card will display a review question
2. Since this is a self-check set of cards, say the answer out loud or write it on a piece of paper
3. Select <FLIP> (**TRACE**) to display the answer on the back of the card
4. If your answer was correct, press <YES> (**WINDOW**). If you answered incorrectly, press <NO> (**ZOOM**). Selecting Yes or No sorts the cards so that you have a chance to review again the ones you answered incorrectly
5. Follow the steps above to complete the stack of cards
 - A. To display the score for an individual card, press <STAT> (**GRAPH**)
 - B. To go to the next card, use the **▶** to see the previous card then press **◀**
 - C. To display your results for the entire stack, press <MENU> (**Y=**) and then select RESULTS
 - D. Press <BACK> (**Y=**) to continue

Extend

1. Review the cards you answered incorrectly
2. Create your own test review cards by using the StudyCards Creator Software!
