

World Geography App

TI-84 Plus

This App features geography facts of countries around the world. Explore latitude, longitude, area, climate, and more. Examine maps of the area, and discover the location of a country with respect to other countries. Set up a variety of multiple-choice random quizzes.

1 _____
Select WorldGeo from the Apps menu by scrolling to the listing and pressing **[ENTER]**, or simply entering the number next to the entry. Press any key to move through the opening screens.

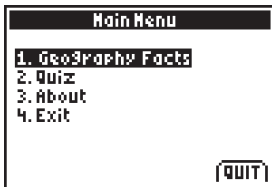

7 _____
Press **MAP** to see a map of Brazil. Press **[TRACE]** to view the borders of the country.

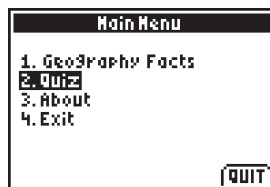

2 _____
For a complete list of the latest facts, check the websites listed in the section References.

8 _____
Use the arrow keys to trace neighboring countries.

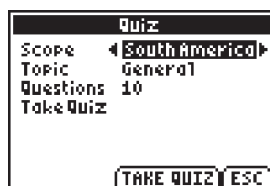

3 _____
For this example, select 1:Geography Facts.

9 _____
Press **[2nd] [QUIT]** repeatedly to return to the Main Menu. To take a quiz on the information, select 2:Quiz.

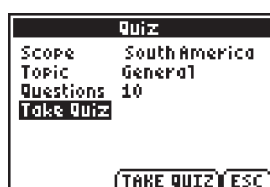

4 _____
Select 2:South America.

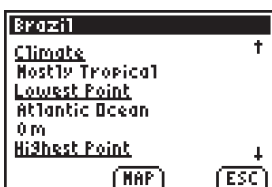

10 _____
Using the arrow keys, select the type of quiz to display.

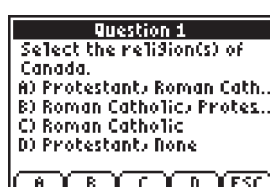

5 _____
Select Brazil.

11 _____
Highlight Take Quiz and press **[ENTER]**. This quiz is multiple choice.

6 _____
See the facts about Brazil. Scroll through the information using the up and down arrow keys.

12 _____
Select an answer. The program will respond by the words Correct or Incorrect. If the answer chosen is incorrect, the correct answer will be displayed. Once the quiz is completed, see the score on the screen.
