

# MATH CLASSROOM POSTERS

**Celebrate positive actions in your math classroom with these posters and mini recognition cards!**

**This resource was created in collaboration with Texas Instruments.**

From being Exponentially Encouraging to Plotting with Precision, Squaring Away Solutions, Innovating to Infinity, Coordinating Collaboration, Analyzing All the Angles, and Vibing with Variables... these designs make math praise fun and meaningful.

Ideas for using these posters and cards:

- Motivational wall displays and bulletin boards
- Small handout cards for recognizing students
- Get-to-know-you activity where students select the poster that best represents them!

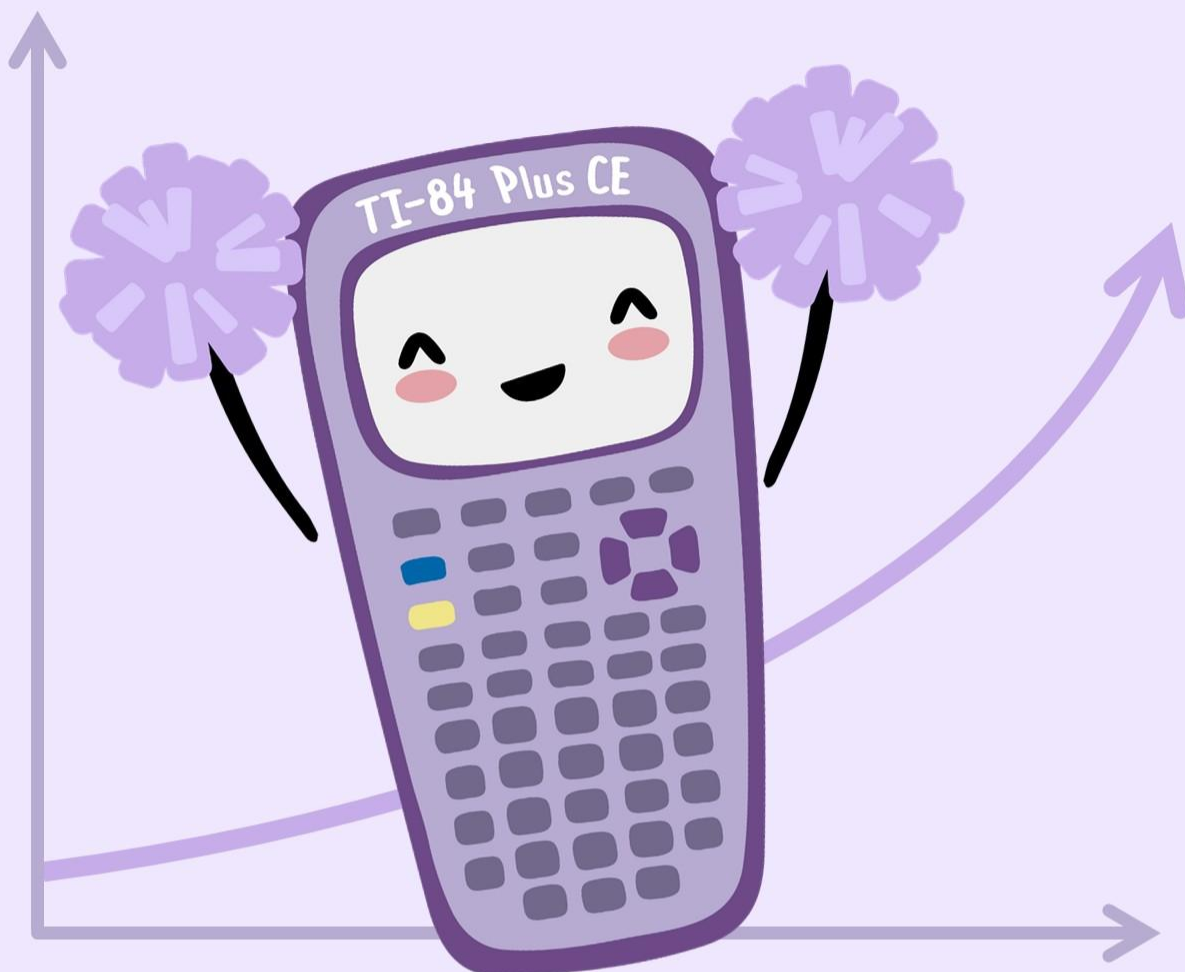

When math meets motivation, the possibilities are infinite!

Everything in this set prints on regular 8.5 x 11 paper. Choose the colorful versions or black ink only.

Included are 8.5 x 11 posters and small cards (4 to a page). The cards can be handed to students for recognition or as an award!
