

Decimal Defender App

This App helps students practice multiplication and division with decimals in a fun environment. This number sense skill is a foundation for learning standard multiplication and division algorithms as well as helping students understand topics such as scientific notation, the metric system, and more.

1
Press [APPS] and select DecDfend. Either press the number listed next to the App or highlight the App listing and press [ENTER]. Press any key to move through the opening screens.

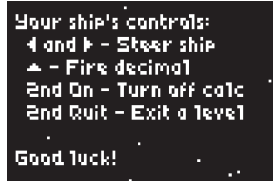

2
If this is the first time the App has been used, the Instructions screens will be displayed. Press any key to pass through the Instructions. To return to the Instructions screens, select Instructions from the Select an Operation screen.

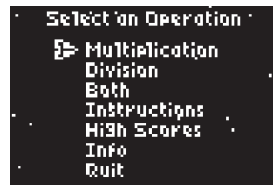

3
Scroll to Instructions and press [ENTER].

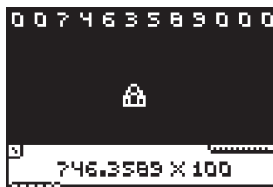

4
There are three Instructions screens. Press any key to move through them.

5
Press any key to return to the Select an Operation screen.

6
To play Multiplication, scroll to that listing and press [ENTER].

7
Use the right and left arrow keys to position the "ship" between the correct numbers at the top of the screen. Press the Up arrow to fire. The numbers will dissolve if the number selected is correct. The ship will dissolve if the selection is incorrect!

8
After 10 problems, view the score. High scorers may enter their initials in the program for others to see.
