

Activity 3 — Exterior and Interior Angle Theorem

Objectives

This activity is designed to help students discover the following theorems:

- ✓ *Triangle Sum Theorem: The sum of the measures of the interior angle of a triangle is 180.*
- ✓ *Exterior Angle Theorem: The measure of an exterior angle of a triangle is equal to the sum of the measures of the two remote interior angles.*

Vocabulary

triangle

vertex

interior

exterior

how to name an angle

Prerequisites

Students must understand how to:

- ✓ *Create and label a triangle.*
- ✓ *Measure and label angles.*

Answers

6. 180.
8. 180.
10. Sum of the interior angles of a triangle is 180.
28. They are equal.
35. $\angle BAC$ and $\angle BCA$.
37. They are equal.
39. They are equal.
40. The exterior angle is equal to the sum of the two remote interior angles.
