PVC, BPA, PHTHALATE, PFAS STATEMENT FOR TEXAS INSTRUMENTS CALCULATOR PRODUCTS and RETAIL PACKAGING MATERIALS

Texas Instruments calculator products and retail packaging materials has gone through verification and design changes to ensure restricted hazardous substances are not present. The following statements are true:

- Does not exceed 0.1% by weight in homogeneous materials for Phthalates DEHP, BBP, DBP, DIBP.
- Does not contain BPA (Bisphenol-A).
- Does not contain Per- and polyfluoroalkyl substances (PFAS) which are a group of chemicals that includes PFOA, PFOS.
- Plastic PVC has been removed from TI calculators and retail packaging materials since 2017 with the transition to plastic R-PET or PET material that is safer for environment.

Important Information and Disclaimer: TI bases its material content knowledge on information provided by third parties and has taken and continues to take reasonable steps to provide representative and accurate information, but may not have conducted destructive testing or chemical analysis on incoming materials and chemicals. Unless otherwise provided by written agreement signed by the parties, TI's standard warranty and limitation of liability terms provided inside each product package applies to the representations provided herein.

A handwritten signature in black ink, appearing to read 'Louis Le', with a stylized flourish at the end.
