

TI-84 Evo graphing calculator

Test preparation: Resetting all memory

Use this method when exams require clearing all calculator memory. Clearing all memory deletes all programs and deletes all calculator applications (apps).

Important: Resetting all memory permanently deletes all applications (apps) from the calculator. Prior to resetting, back up your TI-84 Evo to a computer using the TI Connect™ Evo software application so you can restore it afterward.*

Note: The Finance app is built in and will remain in place after a reset.

Resetting all memory

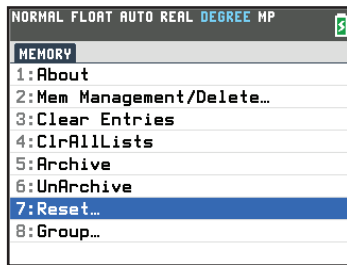

Before the exam:

Resetting all memory prior to exams will ensure that no user-saved information is available during the exam.

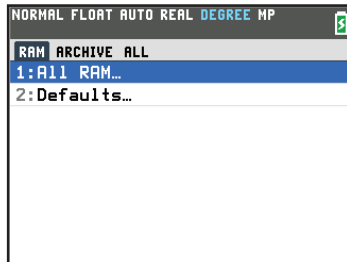

After each exam:

Repeating all the steps will reset the memory again and ensure that any information entered or saved during the exam is permanently deleted.

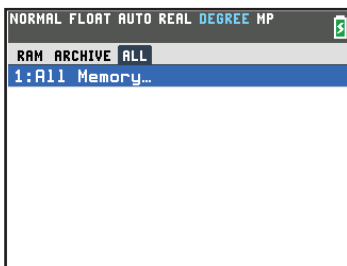

- 1) Press **2nd** **[mem]** to display the MEMORY menu.

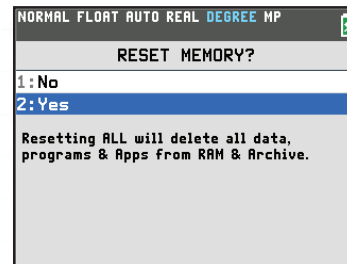

- 2) Select **7: Reset** to display the RESET menu.

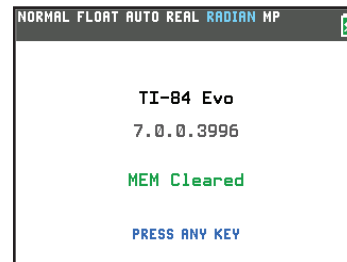

- 3) Press **▶▶** and select **1: All Memory**.

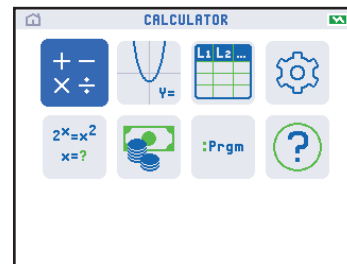

- 4) Select **2: Yes** to erase all data and programs. Factory defaults are reset.

Mem Cleared is displayed on the screen.

Home screen appearance after resetting all memory.

Reinstall apps after exams

To reinstall apps after the exam, use the OS update tool in the TI Connect Evo online application found at connectevo.ti.com.

If you have questions or need assistance, please contact TI-Cares customer support at **1.800.TI.CARES (1.800.842.2737)**, ti-cares@ti.com, or online at education.ti.com/support.

*Use TI Connect™ Evo online to back up your TI-84 Evo graphing calculator prior to preparing it for an exam (resetting all memory) and to restore applications after the exam.
