## Steps for Installing the font:

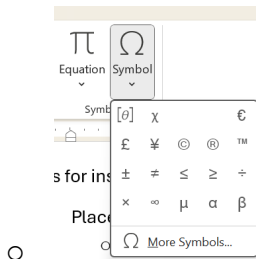

- Download the font from <https://education.ti.com/en/software/search/key-fonts#!>
- Open the tikey.ttf file, and select install.

## Steps for inserting into a word document:

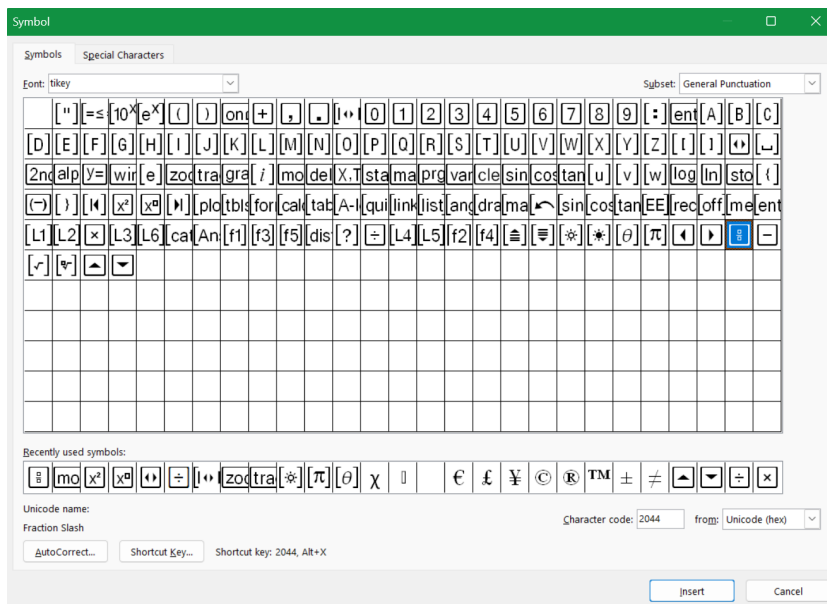

- Place the cursor at the desired location to insert the font character
  - e.g. “Press the fraction key <cursor here>”
- Select the insert tab from the ribbon display

- Select symbol and choose more symbols

- From the more symbols dialog, change the font to tikey and then select the character desired and choose insert.

- The character  will pop in and then change back to the font you desire and keep typing.
