

88 – Piano Key Reference Sheet

Use this as a reference for identifying notes that you would like to use in your song based on notes, frequencies or key location.

Frequencies (in Hertz...Hz) are listed below the white keys and above the black keys. For example, A0 is equal to 27.5 Hz while A4 is equal to 440 Hz. Notes start from A0 and go to C8 from left to right. Notice that as you move from left to right, each frequency for a note (B for example) roughly doubles. B0 is 30.50 Hz while B1 is 61.74 Hz and B2 is 123.74 Hz and so on.
