

TI-83 & TI-89

TI TestGuard 1.0

SET-UP INSTRUCTIONS

1. Power **ON** your educator graphing calculator.
2. Press the **APPS** key.
3. Use the arrow keys to scroll down the list of **APPLICATIONS** and select **TESTGARD**.
4. Select option **2:SET PASSWORD**, to enter a password you will remember.
5. From the **TESTGUARD** home screen, select **3:SETUP**.
6. The **APPS / MODE** screen will appear.
 - a. Call **1.800.TI.Cares** for information regarding selecting specific apps to keep during the calculator test prep process.
7. Highlight **MODE**. A list of options that can be erased will appear.
 - a. Erase **APPS** or data stored in **RAM/ARC** – or **BOTH**. Determine what to delete. This will depend on testing standards within your school, district and state.
8. Press **2ND-QUIT** to return to the **TESTGUARD** home screen.
9. Connect to student graphing calculators – one at a time – using an I/O unit-to-unit cable (note: this is not a USB cable)
 - a. Be sure the student unit is on the **BLANK** home screen.
10. From your **TESTGUARD** home screen, select **1: START**. Press **ENTER**.
 - a. The educator unit will display a “**Processing...**” message.
 - b. When complete, it will display a “**Processing...Done**” message. Your password will flash on the student calculator to verify a successful process.
11. Connect to the next student’s graphing calculator. Press **1: AGAIN**.
