

The all-new TI-84 Evo

Not just an upgrade – an EVOLution!

Easy to learn. Easy to use. Purpose-built for a distraction-free classroom experience, keeping students focused and ready for test day.

Introducing the TI-84 Evo graphing calculator, the latest evolution of the trusted TI-84 Series.

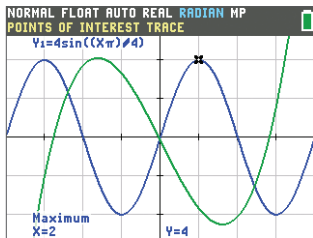

The TI-84 Evo strengthens understanding and builds confidence across every level of math, from algebra to calculus, data analysis and statistics.

Unlock math confidence at education.ti.com/evo.

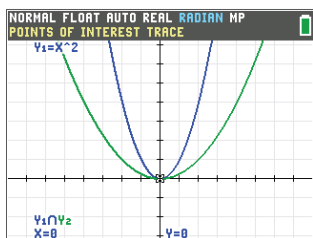

The TI-84 you trust with an all-new experience you'll love.

The intuitive icon-based navigation puts the most popular math tools front and center. Quickly access all the core tools including the Function Editor, Numeric Solver, Finance App and more.

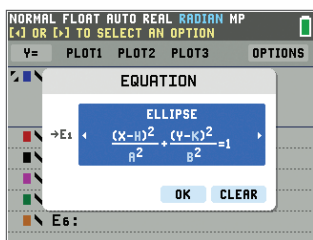

» New Points of Interest Trace

Easily see points of interest on functions while you trace.

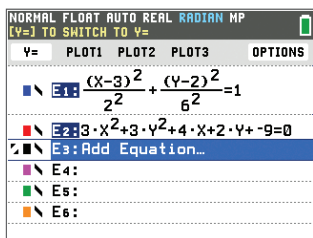

» Streamlined calculation of intersection

Jump straight to the intersection of two functions.

» Redesigned Lines and Conics App

Explore relationships across multiple conics in an instant.

» Smart math templates to guide exploration

Plug-and-play math templates connect math concepts.

» Built-in help bar and context hints

Yellow text and context hints guide next steps and deeper exploration.
