33 years in math education

Leadership:

- NCSM Board of Directors
- NCTM Membership and
Affiliate Relations Committee Chair
- Colorado Council of Teachers
of Mathematics Board of Directors

Joanie Funderburk is the Strategic Alliance Director and T³ Instructor Support Manager for Texas Instruments' Educational Technology division. In these roles, she advocates for high-quality STEM education by elevating the voices of educators in policy decisions at the state and national level. She leads the growth and learning of nearly 300 Teachers Teaching with Technology (T³) instructors who provide high-quality professional learning to educators across North America.

Joanie holds a **B.A.** in Mathematics and M.A. in Administrative Leadership and Policy Studies, from the University of Colorado. For 20 years she taught high school math in Colorado and New Jersey, then served 7 years supporting middle and high school math teachers as the Cherry Creek School District Mathematics Coordinator in Centennial, Colorado. She spent 5 years working for Student Achievement Partners and Illustrative Mathematics, where she provided math professional learning, facilitator certification, and teacher-led advocacy networks all over the country.

Joanie serves on the NCSM Board of Directors as Affiliates Coordinator, and previously chaired NCTM's Membership and Affiliate Relations Committee. She is a longstanding mathematics leader in Colorado, having served on the Colorado Council of Teachers of Mathematics Board of Directors for 13 years, including three consecutive terms as President. Joanie has chaired two math standards revisions for Colorado.

Joanie enjoys sharing her learnings from 33 years in math education as the co-host of Room to Grow: A Math Podcast. In her free time, she explores the Colorado outdoors, skiing, hiking, kayaking, and listening to live music. She is a proud new grandma to twins.
